

FLORIDA MARINE TANKS

FMT Plastic Unveils New Product Line: Livewells!

Florida Marine Tanks is excited to introduce our new livewells product line manufactured in our Cookeville, TN facility. The livewells are rotationally molded of durable seamless one-piece non-corrosive linear polyethylene (LLDPE) and meet the FDA regulation 21 CFR177.1520 and all US Coast Guard regulations. Livewells are available in UV stabilized light blue and white color resin.

OPTIONAL FEATURES

- **Integrated Lid & Handles**
Recessed lid with molded-in handles for convenient handling and transport.
- **Easy Drainage**
Integrated drain plugs simplify draining and cleaning.
- **Flexible Fitting Placement**
Spin-weld fittings on LLDPE allow fitting locations to be adjusted without additional tooling costs.
- **Optional Baitwell Conversion**
Available plumbing accessory kit allows the unit to be configured as a baitwell.
- **Secure Installation**
Built-in inserts accommodate deck hold-downs and an optional mounting bracket kit.
- **Versatile Use**
Can also be used as a floating bait pen.
